AXIS STRENGTHEN FORCES IN TUNISIA: SPAIN SENDS MORE GARRISONS TO CANARY AND BALEARIC ISLANDS

LONDON, Nov. 26.

It is officially announced that the Allied forces yesterday were in touch with the enemy between Jedabaya and El Agheila.

The R.A.F. bombed Tripoli and Bizerta.

THE VICHY RADIO SAID TO-DAY (THURSDAY) THAT THE AXIS IS CONTINUING TO SEND MEN AND EQUIPMENT TO TUNISIA, INCLUDING "ARMOURED DIVISIONS". THESE DIVISIONS WITH MOTORISED ARTILLERY ARE BEING USED TO LINK UP VARIOUS STRONG POINTS ESTABLISHED ALL OVER TUNISIA, THE ANNOUNCER SAID.

Goering's "National Zeitung" of Essen reports that Spain has strengthened garrisons in the Canary Islands, Spanish Morocco and the Balearic Islands.

Darlan Is A Problem

Motion Tabled In Commons Criticising Allies' Policy

LONDON, Nov. 26.

It is stated in London to-day (Thursday) that there is no truth in the report that Admiral Darlan is to send a mission to Britain.

A military spokesman who has been broadcasting daily to France on De Gaulle's behalf since June 1940 was silent yesterday, explaining "as long as Darlan is retained as Head in North Africa I cannot conscientiously continue."

A strongly-worded motion criticising the Allied association with Admiral Darlan was tabled on Wednesday night by a number of Members of Parliament, including the Labourite Mr. Aneurin Bevan and the Conservative Mr. Robert Boothby.

The Dakar Radio to-day gave a speech by the Vice-President of the "Black Africa Legion" emphasising that all members were now under Admiral Darlan's orders. The texts of the telegrams exchanged between the Governor-General M. Bousson and the Governor of Togoland giving assurances of mutual support but making no reference to Admiral Darlan were also read.

The Vichy Radio announced that Admiral Abrial, the Vichy Navy Secretary, was to-day appointed Commander-in-Chief of the Vichy French Naval Forces, according to an official decree. Vice-Admiral Le Luc will be the new chief of the Naval General Staff.

QUIT ORDER IN TOULON

The Vichy Radio to-day said that the New Controller of the civilian population of Toulon has ordered all persons who have no reason to be in port to leave it.

Air Operations In Tunisia

LONDON, Nov. 25.

It is officially announced from the Allied Headquarters North Africa that the Royal Air Force and United States Army Air Force carried out extensive operations in Tunisia.

The Bizerta airfield was attacked on Monday night.

The R. A. F. again bombed Bizerta on Tuesday night concentrating on docks and shipping

American fighters destroyed 14 Axis planes in Tunisia on Tuesday.

The British First Army is making satisfactory progress in the operations against the Axis in the Eastern Forward areas.

Air operations yesterday over the Libya battle area were not on a large scale. Tripoli was again attacked by our heavy bombers on Tuesday night and hits were scored on the target. On the same night, our torpedo-carrying aircraft successfully attacked a large southbound merchant vessel north of Sicily. The vessel was left stationary and down at stern. Bizerta was heavily bombed and bursts were seen on the waterfront and across the quays. Yesterday, our fighter bombers raided Gela airfield in Sicily, and bombs were seen to hit buildings and shelters. In an attack on enemy shipping off Misurata in Tripolitania, a direct hit was scored on a merchant vessel. There was some air activity near Malta yesterday, but no aircraft succeeded in crossing the coast. From these and other operations, two of our aircraft are missing.

General Montgomery is continuing his steady and cautious pressure on the enemy, writes Reuter's Military Correspondent. He is not allowing himself to be tempted to risk a lightning thrust with inadequate preparation. He knows that the Germans have still a fair number of 88 millimetre and anti-tank guns, and are clever in laying minefields. He is not going to be lured into any trap. He knows that the enemy is beaten and that his main force will irresistably overcome their most desperate efforts. Consequently, he hastens slowly. The weather has been very unfavourable, and has denied him the full advantage of his air superiority.

ARREST POWERS FOR SECURITY CORPS

NEW DELHI, Nov. 26.

A Gazette Extraordinary notification says that the Central Government have empowered all officers, and members of the Security Corps including staffs of Advanced Camps in Interrogation Centres and escorts working with them, to arrest without warrant any person under sub-rule (1) Rule 129 of the Defence of India Rules. —United Press.

Beveridge Plan Surprise

COMPULSORY STATE INSURANCE FOR ALL AGAINST WANT, POVERTY AND DISEASE

LONDON, Nov. 26

I am in a position to make a reliable forecast of the Beveridge Report—the historic hundred thousand word document which will affect the entire lives of forty-five million British people and which will be published in a few days, writes Reuter's Special Correspondent. The most important social document produced in Britain for many years, it is the first programme yet devised to turn "freedom from want" from a phrase in the Atlantic Charter into practical reality. It can be said broadly that Sir William Beveridge will propose complete compulsory state insurance against every form of personal want and insecurity to be administered by the Minister of Social Security and applied without any regard for sex, age, income or job. Contributions to the fund would work out at a rate which I forecast at five shillings weekly per head. Employers would contribute. I should be surprised if the annual burden on the exchequer fell far short of 800 million sterling which was the total expenditure of Britain's entire budget up to 1937. This would inevitably mean a permanent load on income-tax of about seven or eight shillings in the pound. The second shock I predict will be a direct challenge to insurance companies, friendly societies and all who oppose nationalisation of social security. Sir W. Beveridge bases his whole policy on the argument that reorganisation of social security is a state necessity. A revolutionary proposal will, I understand, be official recognition of housewives as a class of community performing special services and possessing special needs. Sir Beveridge visualises state social security as one chapter only of the national and international programme to strike at the root of want, poverty and disease.—Reuter.

AKALIS BREAK WITH JINNAH

LAHORE, Nov. 26.

"Talks with Mr. Jinnah have broken down", says Akali leader, Master Tara Singh in a press statement. "Sikhs were not prepared to live in Pakistan on any terms whatsoever and Mr. Jinnah was not inclined to accept the proposal of readjusting the boundaries of Punjab which he thought would simply break up Pakistan.

"I have since then made up my mind and I believe that we can only agree on some principles, and details of demarcation of boundaries can be left to a neutral commission."

Readjustment of the boundaries of Punjab is the only thing according to Master Tara Singh which can safeguard Hindu and Sikh interests.—Orient Press.

Heavy Casualties In Assam Railway Accident

SHILLONG, Nov. 26

Ten persons were killed and forty injured as a result of the railway accident which occurred between Chhatian and Shahajat Bazar Railway stations in Habiganj subdivision on November 11.

This information was given by Khan Bahadur Sayedur Rahman, P. W. D. Minister, in the Assam Assembly to-day.

Relating the cause of the accident, the Minister said that an engine with seven carriages got derailed and capsized due to the permanent way having been tampered with.

The Premier, Sir M. Saadulla, said that he would place all the facts before the proper authorities for their considerations about compensation to dependents of the victims. —U.P.

R.A.F. OVER THAILAND

Jap-Controlled Oil Refinery Heavily Bombed

NEW DELHI, Nov. 26.

Crews of nine American heavy bombers observed the advent of Thanksgiving Day in a large scale attack against the Japanese-controlled oil refinery in Bangkok, Thailand, says a special communique issued by the Branch Office Headquarters United States Forces, China, Burma and India. The target is the only petroleum refinery in the country. In addition to distillation units for making kerosene, fuel, diesel and motor oils, it produces aviation gasoline for Japanese planes. Large storage units are a part of the installation attacked.

First reports state that the target was hit repeatedly by large-calibre bombs. It is believed the plant is seriously damaged.

The raid is the first attack by United States Air Force units against Japanese-occupied Thailand. The location of the refinery is such that none of the civilian population of the Siamese capital could be injured.

All of our planes and crews returned to their bases uninjured.—A. P.

AIR RAID ON BANGKOK?

BOMBAY, Nov. 26.

Radio Bangkok has just announced in its Siamese service that Bangkok had an air raid at one o'clock this afternoon, says a Chungking message. It was stated that enemy planes flew over the Thai capital dropping a number of bombs.

R.A.F. Bombs Myingyan Station

NEW DELHI, Nov. 26.

An India Command War "Communique" says:

Yesterday R.A.F. Blenheim bombers escorted by fighters attacked the enemy-occupied railway station at Myingyan in Burma. Bombs were seen to burst on the main line and among the station buildings.

Last night medium and heavy bombers attacked three Japanese aerodromes, Heho, Mingaladon and Myitktila. Hits were observed in target areas in three places specially, results being obtained at Heho and Mingaladon.

AIR COMBATS.

At Mingaladon several combats took place with Japanese night fighters wherein our bombers without loss to themselves destroyed one enemy fighter and badly damaged others. From these operations one of our aircraft is missing.—United Press.

Battle For Buna

SYDNEY, Nov. 26.

Fighting around Buna has reached its peak and has attained the greatest intensity of many stubborn engagements in New Guinea campaign, states a dispatch from Reuter's Special Correspondent.

It is now clear that the Japanese intend to fight desperately to retain control of Buna where defensive preparations indicate a battle to the finish, states a report from an operational base in New Guinea.

AUSTRALIAN NAVAL MEN IN INDIAN OCEAN BATTLE

Men of the Royal Indian Navy and the Royal Australian Navy shared the battle of the Indian, Ocean, in which the minesweeper "Bengal" and the Dutch tanker "Ondina" sank a 10,000 ton Japaanese raider, Mr. John Curtin, Australian Prime Minister, revealed to-day.

Mr. Curtin added, "The minesweeper, "Bengal" was built in Australia. 'Ondina' is now safe in a port in Australia and 'Bengal' in a Brtish port. Both ships sustained damage.

Ultimatum To Huq?

Bengal Hindu Ministers' Demands And Resignation Threat

(From Our Correspondent)

CALCUTTA, Nov. 26.

Following Dr. Shyama Prosad Mookerjee's resignation of Finance Ministership from Bengal Cabinet, I learn from reliable quarters that the other two Hindu Ministers Mr. Santosh Kumar Basu and Mr. P. N. Banerjee have formulated a set of demands, probably concerning Midnapore cyclone relief and imposition of collective fines indiscriminately on Hindus which have been handed over to Chief Minister.

SEQUEL TO PARTY DECISION

CALCUTTA, Nov. 26.

A memorandum stating the views of the Bengal Congress (Suspended) Assembly Party on the situation arising out of the resignation of Dr. Shyama Prosad Mookerjee has been submitted to Mr. A. K. Fazlul Huq, Chief Minister, by Mr. Santosh Kumar Basu, Minister for Public Health and Local Self-Government, and Mr. Pramatha Nath Banerjee, Revenue Minister, Bengal. It is in pursuance of the decision arrived at a meeting of the Party held last week.

THEIR DEMANDS

Discussing the issues raised by Dr. Mookerjee in his statement to the Press, the memorandum expresses the view that in view of the latest developments it is rather impossible for the signatories to the memorandum to continue in their offices unless there is some change in the Government policy regarding the question of imposition of collective fines, release of political prisoners, etc.

The demands set forth in the memorandum include the release of political prisoners, change of policy regarding imposition of collective fines and the adoption of a more liberal policy about relief work in the Cyclone affected areas in the districts of Midnapore and Twenty-four Parganas.—A. P.

WILLKIE'S WORDS ON INDIA NOT MALICIOUS

NEW YORK, Nov. 26.

Commenting on the decision to cancel the formal civic reception for Mr. Wendell Willkie at Toronto the "New York Times" says to-day, "Some people in Toronto seem not to have learned that one good way to call attention to a man's views is to try to keep him from expressing them.

The City Council voted to ask Mr. Willkie not to mention India or the British Empire and announced that there would be no official reception for him if he did not promise not to.

These measures will naturally stir people to look up just what Mr. Willkie did say about India and the British Empire.

He said first, that in the vast areas of the world there is no longer any British Empire, but instead a proud Commonwealth of free nations.

This is a statement of fact which should hurt no one's feelings. Second, he quoted the wisest man in China as declaring that when the aspirations of India for freedom were put aside to some future unguaranteed date it was not Great Britain that suffered in public esteem but the United Nations."—Reuter.

Eden Will Not Oblige M. Ps.

LONDON, Nov. 26.

Mr. Eden told the Commons that Government considered discussion upon Admiral Darlan's position untimely and declined to arrange for a debate on a motion tabled by a number of members of all parties criticising relations with Admiral Darlan.

Asked if a protocol could be signed shortly making Admiral Darlan permanent High Commissioner in North Africa, Mr. Eden said that he gave yesterday all the information he could on the subject, not purely or even mainly a British subject. The United States were the principal parties. "I am prepared to give further answers, but it is reasonable that I should have notice". Mr. Eden said that the temporary stoppage of Free-French broadcasts was not due to any British desire, adding "I am doing everything I can to secure resumption at the earliest possible moment".

SOVIET FORCES FORGE AHEAD

Tank Battles Between Volga And Don

LONDON, Nov. 26.

To-day's German communique says that between the Volga and the Don and in the great Don Bend, heavy enemy tank and infantry attacks continue. In the Central Sector, the enemy yesterday started the expected attack on a broad front.

The new Soviet offensive on a "Broad front south of Kalinin' Sector north west of Moscow was announced by Berlin this afternoon "Local breaches" were admitted. Vichy radio also mentioned the offensive on the Central Front.

The Moscow Radio quoting a message from the Stalingrad front this afternoon said "the Red army is still forging ahead. Every hour adds to the already tremendous losses of the Germans".

To-day's Soviet midday communique states "during the night of November 25 our troops in the Stalingrad area overcoming the enemy's resistance continued their offensive in the same direction as before."

A supplement to to-day's midday communique says "North of Stalingrad, our troops attacked a strategic height and forced the enemy to withdraw. In another sector on the same front, night fighting continued, and our troops advanced capturing an inhabited locality.

North-west of Stalingrad, our troops advanced capturing 157 tanks and ten guns. They occupied an inhabited locality, where they captured 29 guns, three tanks and several dumps.

South of Stalingrad our offensive continued. We occupied several inhabited points. One enemy regiment was wiped out. Many batteries were destroyed. In another sector on the same front we continued to advance.

South-east of Nalchik in local fighting our troops destroyed many blockhouses. North-east of Tuapse our troops in a night attack wiped out a company of the enemy. On the north-western front our troops captured an enemy fortified position".

Heavy fighting continues in all major sections of the Stalingrad offensive: on the Don Steppes around Surovikino, in the North-west corner of the Don elbow, below Kletskaya, on Klmuk Steppes and inside Stalingrad. Everywhere except Stalingrad itself, after seven days swift advance, Soviet troops are meeting stronger resistance.

Fighting on the Don-bordered Steppes consists essentially of a series of thrusts against German strong points. Three main Soviet columns have been moving down southwards through Surovikino, south-westwards from Kletskaya and a third down the western bank of the Don where according to the latest information, Soviet troops have reached within 25 miles of Kalach.

BR. DELEGATION FOR RUSSIA

CALL FOR PRAYER

Now, therefore, I Franklin D. Roosevelt, President of the United States of America, do hereby invite the attention of the people to the joint resolution of the Congress approved on December 26, 1941, which designates the fourth Thursday in November each year as Thanksgiving Day, I request that both the Thanksgiving Day, November 26, 1942, and the New Year's Day, January 1, 1943, be observed in prayer publicly and privately. In witness whereof, I have hereunto set my hand and caused the seal of the United States of America to be affixed. Done at the city of Washington this twelfth day of November in the year of Our Lord 1942 and of the independence of the United States of America the 167th.

Amery On Correspondence With Detained Indian Leaders

LONDON, Nov. 26.

Mr. Amery was asked in the House of Commons to-day, "if correspondence from private persons in this country can be sent to Indian leaders now detained, whether those leaders are or will be permitted to communicate with private persons in this country and whether they will be permitted to make any public declaration."

MR. AMERY REPLIED: "I UNDERSTAND DETAINED INDIAN LEADERS ARE PERMITTED TO CORRESPOND ONLY WITH MEMBERS OF THEIR FAMILIES AND THEN ONLY ON DOMESTIC MATTERS. I CANNOT SAY WHEN THE PRESENT RESTRICTIONS WILL BE RELAXED. WHETHER ANY PUBLIC DECLARATION BY THE LEADERS COULD BE PERMITTED WOULD PRESUMABLY DEPEND ON ITS CHARACTER."

ASKED IF MEMBERS OF PARLIAMENT COULD COMMUNICATE WITH CONGRESS LEADERS, MR. AMERY SAID: "THAT IS IN THE DISCRETION OF THE GOVERNMENT OF INDIA"

Mr. Amery asked in the House of Commons to consider increasing Indian representation on his Advisory Committee, said "Of my eight advisers, three are Indians. By statute, at least half must have completed—not more than two years before their appointment—at least ten years service under the Crown in India and their selection is made naturally with regard to the nature of such service."

ROOSEVELT'S THANKSGIVING DAY PROCLAMATION

LONDON, Nov. 26.

The STARS AND STRIPES was hoisted beside the Union Jack on City and West End buildings to-day—the American Thanksgiving Day.

The grey old walls of Westminster Abbey, which had been placed at American disposal for the occasion looked down upon a congregation unique in its long eventful history.

The American Ambassador Mr. Winant read the thanksgiving proclamation by President Roosevelt.

Roosevelt's Message

WASHINGTON, Nov. 26.

The President's Thanksgiving Day proclamation which is being broadcast throughout the United States and relayed to Britain to-day said: "It is a good thing to give thanks unto the Lord. Across the uncertain ways of space and time, our hearts echo those words for the days are with us again when at the gathering of the harvest, we solemnly express our dependence upon Almighty God. The final months of this year now upon us find our Republic and the nations joined with it, waging battle on many fronts for the preservation of liberty.

In giving thanks for the greatest harvest in the history of our nation, we who plant and reap can well resolve that in the year to come we will do all in our power to pass that milestone, for by our labours in the fields, we can share some part of their sacrifices with our brothers and sons who wear the uniform of the United States.

It is fitting that we recall now the reverent words of George Washington "Almighty God, we make our earnest prayer that thou wilt keep the United States in Thy Holy Protection" and that every American in his own way lift his voice to prayer. I commend that all of us bear in mind this great Psalm 'The Lord is my shepherd, I shall not want'.

The President here repeated the words of the twenty-third Psalm.

'Inspired with faith and courage by these words let us turn again

Further Cut In Petrol

In view of the need for greater economy in the consumption of petrol the Government of Bombay has decided to cut slightly the rations of petrol allowed to private cars and motor cycles, with effect from next month. The basic ration will remain unchanged. Where the total ration, basic and supplementary, is eight gallons per month or less, it will not be cut. For all rations higher than eight gallons rationing authorities are being asked to impose a uniform graduated cut in accordance with detailed instructions given to them, averaging a little over 10 per cent on the whole. Owners of motor vehicles who have not received supplementary rations for the months of December and January should apply on the usual 'K' forms to their respective rationing authorities.

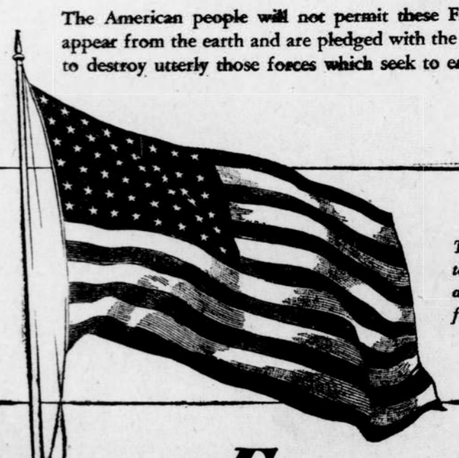
Declaration of Freedom

On 4th July 1776 the people of America seconded for all time in a Declaration of Independence their right to live in liberty. Now, one and a half centuries later, the people of America, through their President, have re-affirmed the right of all man to freedom:

★ Freedom of Speech ★ Freedom from Want
★ Freedom of Religion ★ Freedom from Fear

The American people will not permit these Freedoms to disappear from the earth and are pledged with the United Nations to destroy utterly those forces which seek to enslave mankind.



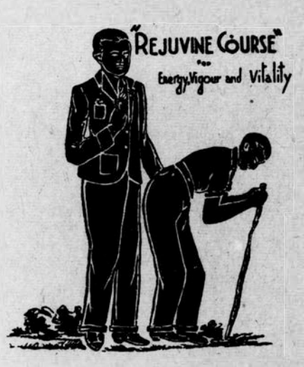
The United States Forces have come to India to help repel and crush the armies of invaders who seek to destroy freedom throughout the world.

AMERICA FIGHTS for FREEDOM

Issued by the United States of America.

GET BACK THE HAPPY DAYS OF YOUTH

BY REJUVINE COURSE



Loss of vitality has attacked no other country as severely as India and nowhere else one meets the pre-planned general loot by quacks as here.

Have you not yet realised these facts even after losing your money and health through their deliberate falsehoods and treacheries? Keeping in view this ruination of the Nation's health the Ayurvedic and Unani Philosophers have in collaboration devised this treatment for loss of vitality general debility, nervous breakdown and weakness. This cure has rejuvenated millions of men and restored the peace and happiness of thousands of ruined homes. Those who were dying of youth knocking at every door shedding tears on their own follies, are now proud fathers of healthy children and happy husbands of admiring wives.

HOW TO REGAIN YOUTH?

The wonder is that youth is restored in 7 days but strict self-control is to be exercised during this period otherwise the secret of cure is rendered ineffective. So only those should use this medicine who can promise this self-control. A great miracle makes its appearance on the very first day. All that is required is to store it and then for years you will not experience any loss of vigour again. There are two medicines, one for internal consumption and the other for external application. The complete course is known as **REJUVINE**. The very first dose of internal medicine begins to work wonders as if complete transformation has begun. The medicine for application also shows its miraculous effects from the very first day. Man is stupefied because electric waves and a sea of force and vigour burst forth. Even if a healthy man uses this course, he will enjoy youth to the full.

Price complete course Rs. 5|-. Postage -|8|- extra.

This course will be sent to those who promise to exercise complete self-control.

BRITISH IMPERIALISM

The suspicion that Britain will make every effort to continue her imperialism in India for an indefinite period after the war is a commonplace in India. It was little affected by the many pledges given to India that she would be given freedom as soon after the war as was possible that is to say, as soon as Britain thought it to be possible. The explicit and implicit snags in the pledges only confirmed the suspicion, which was further deepened by Mr. Churchill's declaration that the Atlantic Charter would not apply to India. His more recent utterance that he had no intention to liquidate the British Empire and that Britain would hold her own did not shock or scandalise India because she did not expect anything better from him. She only thought that the fate of the Empire was determined in the past by the intentions of other people than those of British politicians and so it would be in the future.

"Holding Our Own"

It appears that Mr. Churchill's speech was an attempt to dispel the illusions in the minds of many about the application of the Atlantic Charter to the East. The attempt was followed up by the "Times" of London last week. That paper seemed to go farther than Mr. Churchill and cast about for fresh fields and pastures new. Referring to the prospect of expelling the aggressor from the vast territories in the Far East formerly under the rule of Britain or France or the Netherlands, the paper says that "abdication is not a policy" and adds: "Apart from other considerations the joint character of the military action by which the aggressor will be expelled from these regions determines that future settlement must also be a matter of joint concern." Joint control with America of the territories is more clearly indicated in the following: "Interest and responsibility go together and the future organisation and progress towards freedom of the colonial territories in the Far East depends in part on the nature of the interest which the American people take in this progress and the extent of responsibilities which they are prepared to assume" in order to further it. Once agreement is reached on these two fundamental points—recognition of joint concern in the settlement of these territories and recognition of the need for a positive policy involving political responsibilities—then there is ample room for debate, initially perhaps between Great Britain and the United States and eventually among all the United Nations principally concerned." It is easy to infer that those who are casting wistful eyes on fresh possessions or protectorates are not likely to surrender what they already have. "Abdication is not a policy" or as Mr. Churchill put it, "we are going to hold our own."

What Of America?

So much about Britain. What about America? Has she been infected by British Imperialism? Is she going to be party to it to any extent or acquiesce in it after all her protestations about freedom and democracy? In his recent broadcast Mr. Wendell Willkie pointed out how the earlier goodwill in the East towards America was being replaced by doubts about her real war aims. In unequivocal terms he said: "The two hundred million people of Russia and four hundred and fifty million Chinese are bewildered and anxious. They are not so sure of us. Many of them have read the Atlantic Charter. Rightly or wrongly, they are not satisfied. They ask: What about a Pacific Charter? What about a World Charter? . . . . Is freedom supposed to be priceless for the white man or for the Western world but of no account to us in the East?" He was not silent about India though he did not visit this country. He said that the Indian question had "become almost a symbol all through Asia." Presumably he meant that India was regarded by all as a crucial test of the *bonafides* not only of Britain but also of America because of their joint declarations about world freedom and democracy. Referring to America's responsibility in this matter, he said: "The wisest man in China said to me: 'When the aspiration of India for Freedom was put aside to some future day, it was not Great Britain that suffered in public esteem in the Far East. It was the U. S.'" The "wisest man" evidently meant that India expected nothing from Britain and was not surprised but said in effect to America: "You too"? Speaking of the people of the East in general, Mr. Willkie said: "They cannot ascertain from our Government's wishy-washy attitude towards the problem of India what we are likely to feel at the end of the war about all the other hundreds of millions of Eastern peoples. They cannot tell from our vague and vacillating talk whether or not we really do stand for Freedom, or what we mean by freedom." Mr. Willkie has no hesitation in declaring: "India is our problem. If Japan should conquer that vast subcontinent we will be the losers" That Mr. Willkie speaks for a considerable section of people in America is evident from the text of the advertisement given by a number of leaders of public opinion in that country which we publish on this page. We trust they realize that America is a loser even if British imperialism continues in India in the sense that it is bound to be a menace to world freedom, world democracy and world peace. India will come into her own soon enough, whatever may be British intentions and whether or not America revises her "wishy-washy attitude." But those who profess great aims and desire world peace ought to make honest, earnest, concerted efforts to achieve them.

The Drive Continues

Relentless, powerful and rapid pursuit of the retreating Germans is the dominant feature of the sixth day of the Red Army's Stalingrad offensive, said a Moscow message dated Wednesday last. This was followed by another of the now daily special announcements on behalf of the Russian Command which more than confirm the earlier comment. Allowing not even a minute's respite to the Germans, the Russians have continued brilliantly to exploit their initial successes which took the Germans by surprise and badly disorganised them. In consequence they have already captured no fewer than 51,000 enemy prisoners and killed and wounded twice as many, while enemy losses in equipment are equally grievous. What is more, Stalingrad has been relieved three months after being besieged and in spite of Herr Hitler's confident pledges. This is one of the most dramatic events of this war. But the Russian success does not end there. According to an unofficial report the Russian pincers around Stalingrad has now virtually closed trapping inside it some three hundred thousand Germans.

Marshal Timoshenko's offensive is thus gathering strength like a veritable snow ball. Nor is that all. Local offensives which had till now been reported only in the south have, according to German reports, extended northwards, too, particularly in the region between Smolensk and Leningrad. Apart from constituting a gratifying proof of Russia's reserve strength, these operations are calculated to make a very useful contribution to the main Russian drive under Marshal Timoshenko by keeping the Germans busy all along the Russian front. Unless Herr Hitler brings off a surprise, he is certainly facing a major disaster. But it would be well to await developments before indulging in too great optimism. As the Russian paper "Izvestia" warningly points out, the Germans will be certain to offer much greater resistance than they have managed to do so far.

Toronto Bans Willkie

The patriotic Canadians of Toronto who have cancelled a civic reception to Mr. Wendell Willkie are proud of the British Empire. But let there be no mistake about it. So far as they themselves are concerned they cannot tolerate any interference from the mother country in their complete enjoyment of independence to the point even of treating with the U. S. A. separately from and to the prejudice of Britain and her interests. But the "Empire" and the domination over countries like India by Britain is another matter. It is in fact two sets of matter: One sentimental affection for the mother country at the expense of another country and two the hope to profit oneself from the Empire. The Toronto patriots, therefore, cannot tolerate any criticism of the British Empire and they are extremely annoyed with Mr. Willkie. It is unfortunate for the people of Toronto that their supreme rudeness to Mr. Willkie will not hurt the latter. But for India, which is the main provocation against Mr. Willkie, the incident offers a significant and instructive commentary on the Empire, the Commonwealth and the principal members of it.

Frankly Speaking

Good Work

Following upon General Bissel's recent statement about the growth in India of the American Air Force, a very interesting communique has been issued from General Stillwell's headquarters regarding the recent activities of the U. S Air Force in China. The details show how the work of the Allied air forces from India is supplemented by those on the other flank of the Japs. It is good work, too, as witness the success achieved in the raid on Haiphong. But it is time now that this work in the air was supported by a move on land.

De Gaulle Suppressed

Mr. Eden's apologia in the House of Commons does not mitigate the insult to General de Gaulle, a great leader and a valiant ally who joined the British in the darkest days of the war. Such a man was dictatorially denied expression of his views which are the views of true Frenchmen in the interests of Admiral Darlan! Mr. Eden, however, seeks to pass the responsibility for the main reasons for this insult on to America and gives the assurance that the British pledge to General de Gaulle stands. Let us hope he means what he obviously says. But General de Gaulle would not be to blame if his faith was shaken in friends and comrades in arms who have refused him even the courtesy of the use of the B. B. C.

Deplorable

The "Dawn" takes exception to our view, which is also the view of the Congress President, that, though the A.I.C.C. meeting at Allahabad rejected the Pakistan proposal, this does not alter the position taken up by the Congress in the resolution passed by its Working Committee earlier at Delhi conceding the principle that, if a Province refused to join the Indian Union it would not be coerced. We hold, with the Congress President, that, though a particular proposal about Pakistan is not accepted by Congress to-day—presumably because it is not worked out even in essential details—the assurance about non-coercion permits negotiations on any scheme of Pakistan. But we can understand the difficulty of the "Dawn" in reconciling these two apparently contradictory resolutions On another occasion we may deal with the subject at some length. But it is deplorable that the "Dawn", instead of discussing the question impersonally, vilifies the Congress President in vulgar terms. Argument cannot cope with such a method and we would not descend to a similar method.

SLUMP IN DEMAND FOR CLOTH

No Truth In Delhi Story About Standard Cloth Orders

The news of the opening of the mills in Ahmedabad has not so far resulted in any reduction of the high prices which have prevailed in the cloth market for the last few weeks. But inquiries in the cloth market show that there has been a definite slump in the demand for cloth. It appears that consumers have abated their rush and are waiting for a lowering of prices. The market, however, has not responded immediately and appears to have adopted a policy of "wait and watch."

The rosy picture drawn from Delhi of the Bombay mill industry undertaking to produce more than 9,000,000 yards of standard cloth "to meet the demands booked by the Governments of the Punjab, Sind and Assam", it is gathered from inquiries made in Bombay, is wholly untrue.

The scheme for the manufacture of standard cloth has been hanging fire for a long time and since the setting up of the textile advisory panel, it has been felt that in the distribution of standard cloth great care should be taken to see that it does not drift into the 'black market' and that it reached only the poor consumers. It appears that this issue has not yet been settled by the Government.

It is likely that this issue will be thrashed out when the Commerce Member to the Government of India visits Bombay on or about December 4. He will stay here for about six days.

The Government of Bombay on behalf of the Central Government, it appears recently placed an order for 24,00,000 of yards of standard cloth on the Bombay industry. The total indent of the Government of India, covering mostly States, seems to be about 120,00,000 yards.

In the meanwhile, certain mills in Bombay have taken the initiative by selling to their own employees cloth at cost price.

Akbar And Amery

Mr. B. F. Bharucha writes:—

It was indeed, very amusing to read Mr. Amery's splendid tribute to Akbar, the Great. It was like an artist painting a lily.

However, whilst Mr. Amery has spoken with the vision and vigour of Akbar the Great, he has been in company with Lord Linlithgow splitting up India, as she was never divided in her whole history.

Long live Akbar! Quietly quit, Amery! Now, good-bye, Lord Linlithgow, Maxwell and Co.!

Time For Mediation In India Is Now

AMERICAN APPEAL TO ROOSEVELT AND CHIANG-KAI-SHEK

The following is the text of the full page India advertisement with all signatures which appeared in the "New York Times."

Is India America's business?

Yes, because we need India's millions on our side against Japan The people of India do not want Japan. They want freedom. If they can be assured of freedom they will fight against Japan as China is fighting.

How can the Indian people be assured?

Not by words and not by promises. They fought bravely through the first World War, believing that they would be given freedom through an orderly process of reforms to begin immediately after victory. They waited two years and nothing happened. Then they began their own long struggle of which to-day is only a part. They will not believe promises again.

Action is required, not promises and action now, before it is too late. All is not well in India. The independence movement is only beginning in full force.

* * *

Our Chinese allies are greatly disturbed and are anxious for the allied cause in Asia.

We believe that the present situation in India is unecessary and can be changed. We believe that it must be changed for our common cause, victory for the Allied Nations.

The Indians themselves have declared that they are ready for fresh negotiations looking toward a Government of all parties and religions as a step toward a federal union which might be like that of the United States. We do not prescribe what that Government should be but the variety of India's people should not be an obstacle to their union in independence, in view of our own experience as a nation. We are confident that all Indian elements will participate in a Provisional Government which would be modelled on a federation.

The time for mediation in India is now.

Japan is busy exploiting the apathy of a people sinking into hopelessness and sullen rebellion. The leaders of the people who alone might rouse them and unite them into resistance are in jails.

It is idle for the United Nations to wait, expecting that to happen which cannot happen unless it is planned and provided for.

We are in grave danger lest the disasters of Burma and Malaya be repeated in India with even more effect.

* * *

That Indian readiness to negotiate is unchanged is proved by Gandhi's expressed desire to meet the Viceroy before he was imprisoned and again by his recent appeal from prison. It is only to the benefit of the Allied Nations to take advantage of this reasonable attitude shown not only by Gandhi but by other Indian leaders as well.

We therefore urge upon President Roosevelt and upon Generalissimo Chiang Kai-shek that they recognise the interest of the United Nations in the Indian dilemma and that they use their good offices to ask the British Government and the National Congress of India and other leaders to open new conferences, with mutual determination to find that way of action which will most speedily bring India into the ranks of our allies by beginning now the programme of her independence.

We urge all those who are in sympathy with this statement to express it in all ways open to free American public opinion.

* * *

Speaking to a highly placed American I learnt the very amazing thing that the British are controlling the U.S. communiques issued in India. The ground for doing this is that India is under the charge of General Wavell who is Supreme Commander here. Consequently the whole American effort in India comes under the control of the British. Now I want you to realise what this in effect amounts to. It means what is being said in New Delhi at press conferences given by the American Chief of Staff is wetted first by someone like Brigadier Jehu.

This high American said to me: "It kinda cramps our style. We feel rather frustrated in the efforts we would like to make to enlighten the press in India." That's why I told you yesterday that wherever you meet an American in India, put your story before him. He'll get it out somehow to his country and his people because there is not one but a hundred Americans here who are out to see that India is properly represented in America, specially because he has seen how gallantly many an Indian soldier goes to his death fighting for democracy and freedom, which he is yet to enjoy himself.

NEW YORK COTTON MARKET

Bombay, Nov. 26.

On Wednesday New York cotton prices recorded a further rise of about 11 points on moderate buying. It may be mentioned that the sharp decline recorded on Monday was unfounded and now prices are recovering. The heavy liquidation improved the technical situation but we believe, the market will await fresh developments.

The New York cotton market opened at a rise of 5 points at 18.39 and advanced to 18.45. There was scattered selling and hedging. The market finally closed at a net rise of 15 to 11 points. Spot cotton prices improved 22 points at 20.23c. per lb.

The New Orleans cotton futures market was also steady and closed at a rise of 23 to 10 points. Spot cotton prices gained 9 points at 19.03c. per lb.

Songs for a Soldier

A happy frame of mind is grand medicine. When a man's thoughts are carried away from pain and his surroundings by lilting music, by interest in a tale, or even—for a few minutes—by a soothing pull at a cigarette, that short respite is an aid to his physical recuperation.

It is one of the manifold duties of our Organisation to furnish happy frames of mind. To those who are sick or wounded because they fought for us we devote much of our time, much of the money that you provide. Gramophones, books to read, sweets, cigarettes . . . and clothes and slippers and dressings and dressing gowns.

This work is just one other manifestation of that spirit of love and of service that motivates the whole of the effort of this great Organisation. To those who help us to help them we say —"Thank You."
